

**A SYNONYM OF PHEIDOLE DENTATA VAR. COMMUTATA
MAYR (HYMENOPTERA, FORMICIDAE)**

I wish to call to the attention of myrmecologists a synonym of *Pheidole dentata* var. *commutata* Mayr. In 1938 (Amer. Midl. Nat. 19:238) I described some workers of this variety as *Leptothorax tennesseensis*. Since that time it has been found that the specimens belong to *Pheidole dentata* var. *commutata* Mayr and the name *Leptothorax tennesseensis* Cole must therefore be relegated to the synonymy.
